4.5" PHARMACY CARRIER

Our pharmacy carrier was designed for use on a 4.5" pneumatic tube systems. These systems are for drive-up pharmacies. The carrier has a large capacity which will accommodate the standard blister pack pharmaceuticals.

FEATURES:

- The latching system was designed for easy use and to secure the contents.
- The Velcro™ air seals/rider bands provide long life and are very quiet during transport.
- The carrier's internal capacity is large enough for blister packs.

All items are in stock for immediate shipment. We can ship same day throughout the United States on orders received prior to 6pm Eastern Standard Time.
